To:

Harsh Pandey

Department of Computer Science & Engineering

Dear Harsh,

Following your successful technical interview rounds and coding assessment held on October 28, 2026, we are pleased to offer you an internship position as:

Role: Frontend Developer Intern

Department: Core Engineering

Reporting Manager: Engineering Lead, Web Platform

Duration: 6 Months (Full-Time, Hybrid)

Compensation & Benefits:

Stipend: ·25,000 per month (All-inclusive stipend subject to applicable statutory deductions).

Equipment: A standard company-configured MacBook Pro will be provided for official engineering work at no cost to you.

Roles & Responsibilities:

1. Develop modular, responsive user interface components using React, TypeScript, and Tailwind CSS.
2. Collaborate with UI/UX designers and backend engineers to integrate RESTful API endpoints.
3. Write comprehensive unit and end-to-end test cases using Jest and Cypress.
4. Participate in daily agile standups and sprint retrospectives.

Important Notice:

InnovateLabs never solicits any payment, training fee, or deposit from job candidates at any stage of the recruitment process. All official communications are dispatched exclusively from @innovatelabs.in email domains.

Please sign and return the duplicate copy of this letter within 5 working days to hr@innovatelabs.in.

Yours sincerely,
Ananya Sharma
